

DUOPLANE VENDOR'S GUIDE

Dropshipping Leader

- Prebuilt integrations for vendors
- Zero cost for vendors to use
- Flexible and robust data formats
- Confidential and secure data storage

How Duoplane Works

Order Journey

1. Retail partner receives order
2. Order info sent to Duoplane
3. Duoplane splits order line items by the vendors who can fulfill them
4. Vendors are sent purchase orders
5. Vendor confirms purchase order
6. Vendor provides tracking and invoice numbers
7. Tracking pushed to retail partner
8. Duoplane archives completed orders and vendor's invoices

Why Vendors Love Duoplane

Inventory Syncing

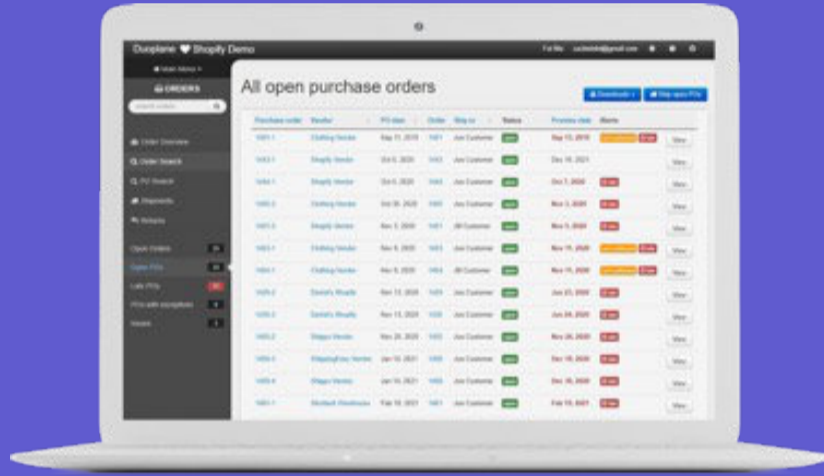

- Ensure your stock levels are always in sync with your retailers to avoid over-selling

Order Processing

- Receive your purchase orders with ease and tailored for your systems

Invoice Management

- Help your retailers stay organized with your invoices so you get paid in a timely manner

Vendor Management

Streamlined Vendor Directory

- Simple onboarding process
- Customizable connection options for each vendor
- Robust data formatting options
- Free portal access for all vendors
- In platform messaging, order alerts, and rules

Order Processing

- Receive orders individually or batched over time periods
- Customizable file formats that can match your current order templates
- Flexible delivery methods
- Easily sync tracking information back to your retail partner

Invoice Management

Invoice Features

- Allows retailers to receive invoices for shipped orders
- Invoices are easily searchable & can be exported as a CSV
- Easily track what is owed and when

Accounting Integrations

- Duoplane integrates with your retail partners QuickBooks and Xero accounting software
- Syncs invoices and create unpaid vendor bills with the click of a button

Inventory Syncing

- Upload unique data feeds to share inventory availability, costs, and back-in-stock dates
- Can be automatically retrieved through flexible delivery methods
- Inventory availability easily synced to retail partner's stores
- Quickly and accurately process large files

Integrations

Implementation Timeline

- Invitation** Your retail partner will grant you free access to Duoplane, inviting you to your account via a welcome email.
- Setup** Your account preferences will be recorded for all or some of the order processing, shipment processing, and inventory feed functionalities.
- Testing** Your retail partner will send test orders and receive test feeds to ensure files and connection types are mapped correctly for your internal systems.
- Live** Once tested, you may wish to move to a production environment and begin processing live data.
